

Ilham Anugrah Putra Fauzi

085161081450 | fauzilham208@gmail.com | www.linkedin.com/in/ilham-fauzi1007/ | Bandung, West Java

I am a fresh graduate in Telecommunication Engineering from Telkom University with a strong interest in the telecommunications field. Experienced in frontend and backend development with additional knowledge in UI/UX design. Highly motivated to contribute through technical skills and strong procedural understanding to support solution development in the telecommunications industry.

EDUCATION

Bachelor of Engineering in Telecommunication Engineering
Telkom University – Faculty of Electrical Engineering

GPA: 3.07/4.00

September 2021 – August 2025
Bandung

PROJECT EXPERIENCE

Final Project
Frontend Developer, Backend Developer

- Thesis Title: "Detection of Individuals Based on Digital Lip Print Images"
- Developed an individual detection system using lip-print biometrics, working on both frontend and backend using Flask (Python), PHP, and MySQL.
- Designed and implemented an interactive UI/UX for data management and visualization.
- Built and managed a database for storing digital images and biometric identification results.
- Integrated a Convolutional Neural Network (CNN) model into a web application for automated biometric classification.
- Deployed the system to a cloud hosting service to increase accessibility and scalability.

September 2024 – July 2025
Bandung

Project Cloud Computing
Crypto Predictor Website

- Built a cryptocurrency price prediction website using Streamlit.
- Implemented Python-based predictive models to analyze real-time crypto price trends.
- Deployed the application on a cloud platform for online access.

February 2025 – June 2025
Bandung

PT Telkom Indonesia, Tbk – Divisi Digital Connectivity
Service (Broadband Access Network)

- Conducted internship activities in the Broadband Access Network division focusing on digital connectivity services.
- Studied broadband network infrastructure and operational procedures in a telecommunications environment.
- Supported the team in managing and analyzing broadband access network operations.

July 2024 – August 2024
Bandung

ORGANIZATION

Telecommunication Event and Super League (TESLA)
Member – Publication & Documentation Division (Squad of Publication, Ethic Design)

- Designed posters, Instagram feeds, and handled editing tasks.
- Documented various TESLA events.
- Served as an event operator for TESLA 2023 welcoming activities.

September 2022 – November 2023
Bandung

SKILLS

Hard skill
Programming & Development: Python, PHP, Flask, HTML/CSS, JavaScript, MySQL
Machine Learning: Basic CNN, Data Processing
Web Development: Frontend & Backend
Tools & Software: Git/GitHub, VS Code, Google Colab, Figma, Adobe Photoshop, Microsoft Office
Networking & Telecom: Broadband Access, Networking Basics
Cloud Deployment: Streamlit

Soft skill
Problem-solving, Tech adaptability, Analytical thinking, Teamwork, Creativity, Communication

Languages
Indonesian (Fluent), English (Intermediate)
