Profile

Ilham Anugrah Putra Fauzi

With a technical background in Telecommunication Engineering, I have a strong foundation in information technology, computer networks, and system-based operations. I am experienced in supporting IT systems, maintaining reliable network connectivity, and assisting daily operational activities within an organization. I am adaptable, quick to learn new tools and technologies, and motivated to contribute to efficient, well-organized, and technology-supported business processes.

Skills

IT & System Support

- Basic IT support and system operations
- Software and network troubleshooting
- User support and basic system analysis

Web & Application Basics

- Basic frontend and backend web development
- Simple application development
- Basic application deployment

Data & Tools

- Database management and data processing
- Basic data analysis and reporting
- Use of common development and office tools

Soft skill

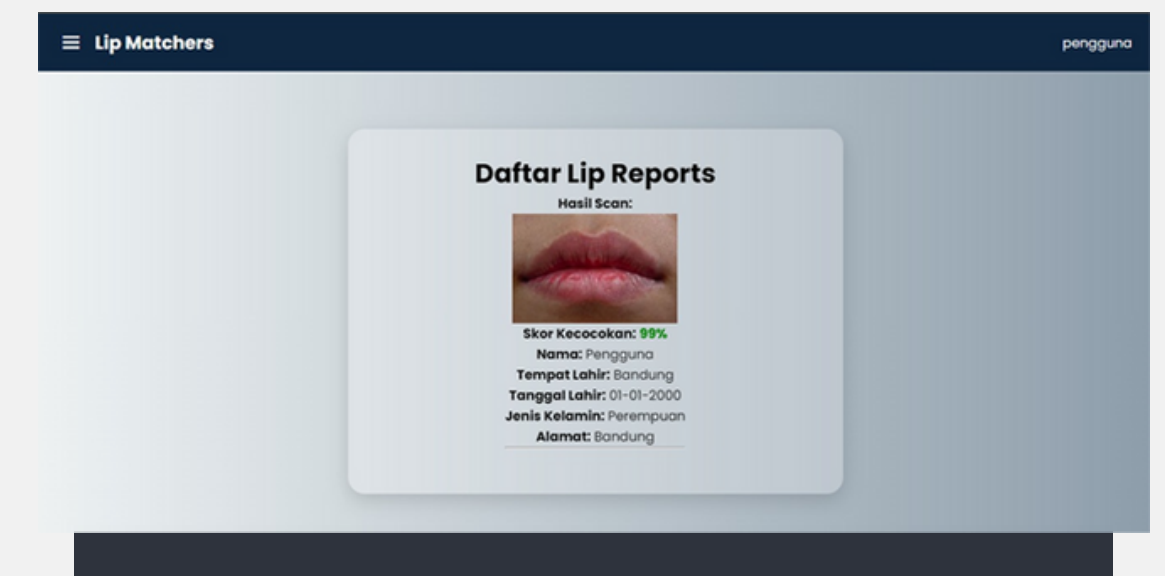

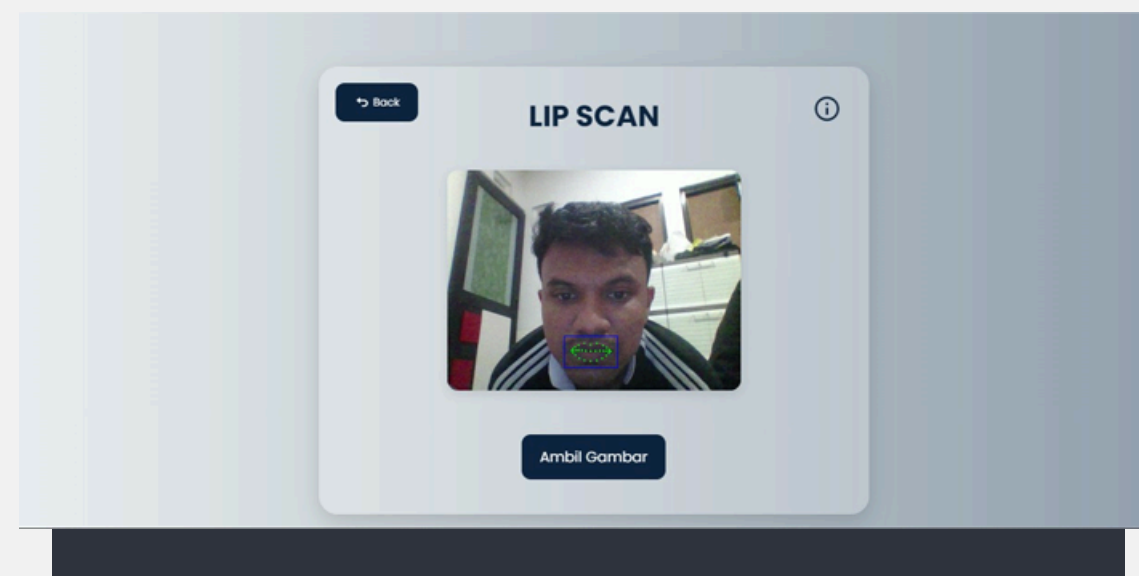

- Problem-solving and analytical thinking
- Communication and teamwork
- Adaptability and willingness to learn

PROJECTS

Lip Matcher

Lip Print Detection Website

LipMatcher is an AI-powered web application for identifying individuals using lip biometrics. Users can scan their lips via camera or upload an image, and the system analyzes unique lip patterns using a CNN-based computer vision model to match them with a database. This project combines computer vision, deep learning, and web development, achieving a model accuracy of 92.7%.

Sep 2024–Jul 2025

PROJECTS

Cryptocurrency

Cryptocurrency Analysis & Price Prediction Dashboard

The Cryptocurrency Analysis & Price Prediction Dashboard is a web-based platform that visualizes crypto market trends and forecasts future prices. It features interactive historical charts, asset performance rankings, and multi-currency views, with predictions generated using a SARIMAX time-series model. The system combines financial data analysis, machine learning, and web dashboard technology to deliver clear insights into cryptocurrency market movements.

Feb 2025–Jun 2025

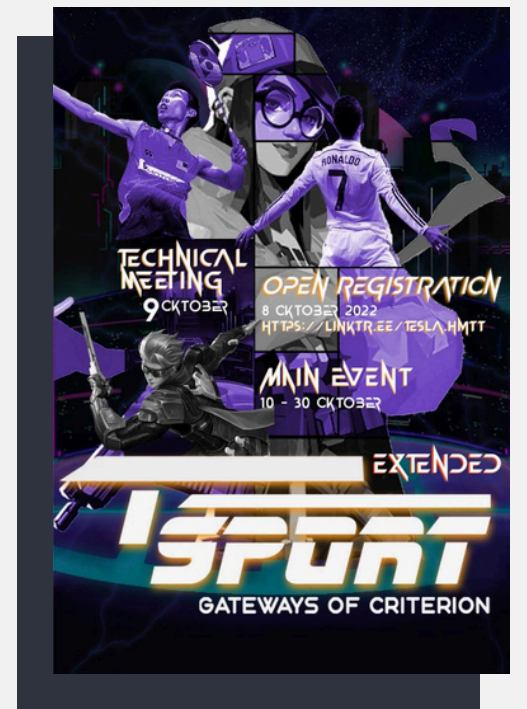

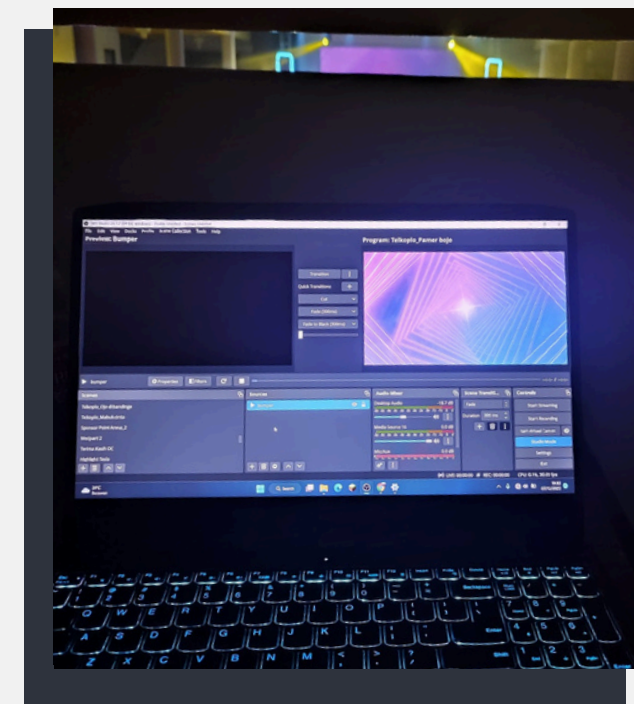

Organizational Experience

Telecommunication Event and Super League (TESLA)

Member – Publication & Documentation Division (Squad of Publication, Ethic Design)

- Designed posters, Instagram feeds, and handled editing tasks.
- Documented various TESLA events.
- Served as an event operator for TESLA 2023 welcoming activities.

2022-2023

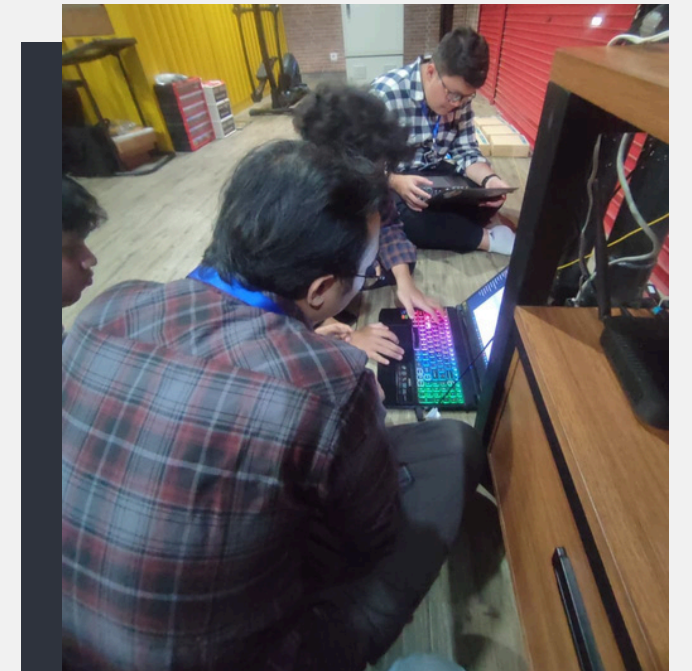

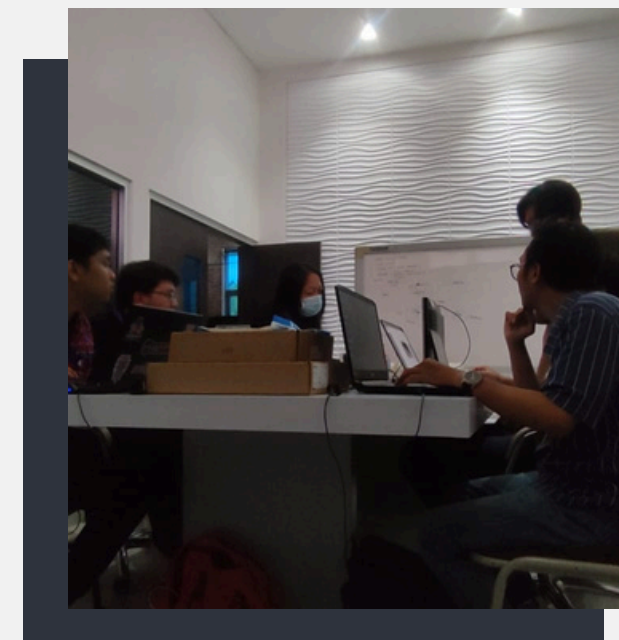

Work Experience

PT Telkom Indonesia, Tbk

Digital Connectivity Service Division
(Broadband Access Network)

- Gained hands-on experience in network-based systems and operational processes.
- Assisted technical teams in system monitoring and data analysis.

Jul 2024- Aug 2024
